This will include:

1 person doing the ritual

1 person to assist them

Plus:

Pre-ritual

private gathering with Fakir

Spirit + Flesh is a ritual seated in the history of body modification, pulling elements from various piercing rituals from around the world such as Chidi Mari, Thaipusam, and the Sun Dance. It is a flesh hook energy pull, where participants get pierced in a ritual setting with two small hooks attached to a rope. The rope is then attached to an immovable object or another person and the participant pulls from the piercing, feeling the energy of everything around them, set to live drummers. A truly once in a lifetime experience, this is the first time that Fakir Musafar and Cleo Dubois have brought this ritual to Vancouver.
